

# Mohamed Kharashy Junior Frontend Developer

address: Giza, Egypt · email: [mkr.codes@gmail.com](mailto:mkr.codes@gmail.com) · portfolio website: [mkr.pages.dev](https://mkr.pages.dev) · phone: +201153634544

## EXPERIENCE

---

### Front-end developer at Eeasy orders *Aug 2023 - present*

Easy Orders is a leading SaaS startup in dropshipping and e-commerce, that simplifies the e-commerce experience and ordering process with a remarkable track record of success. With over 10 million orders and over 30,000 stores.

#### Achievements:

- Created an inline editor that replaced conventional forms, resulting in more user engagement and a more efficient workflow.
- Implemented multi-language support, making the platform accessible to the global audience
- Crafted diverse and unique e-commerce themes, overcoming the challenge of distinct design requirements.
- Implemented user event tracking and reports, to report functionalities such as order completion, information submission, and spam detection.
- Implemented a user permissions system, allowing store owners to set and manage specific access levels for employees.
- Enabling users to effortlessly add multiple accounts and seamlessly switch between them.
- Continuously improved existing features and enhanced the platform's UI and overall user experience

**Stack:** react-admin, Nextjs, typescript, react-query, zustand, tailwindcss, Astro, JWT, and more.

### Junior front-end developer at Dexi *June 2023 - Aug 2023*

An all-in-one dental practice management system that automates the most important logistics, reduces staff's margin for error, and puts fingers on the pulse of your operations.

#### Responsibilities:

- Collaborate with the team to implement new features and enhance existing ones.
- Write clean, efficient, and maintainable code using Reactjs and more.
- Troubleshoot and debug frontend issues, and fix bugs

### Junior front-end developer at Zamalek SC -Freelance- *Oct 2022 - Feb 2023*

Zamalek Sporting Club is an Egyptian sports club based in Giza. It is one of the most successful football clubs in Africa and the Middle East and was the most titled club in African tournaments in the 20th century.

#### Responsibilities:

- Created the club's official website.
- Collaborate with the design team and the backend team to meet project requirements and goals.
- designed the mobile UI
